

Rothamsted Research

Rothamsted Research is the world's longest running agricultural research station, delivering cutting-edge science and innovation for 170 years, with strong links to research institutes in Oxford, Cambridge and London.

There's a range of commercial space available on the Rothamsted Research campus in Harpenden, including offices and laboratories, ideal if you're looking to develop your IP at the heart of this world-leading agri-tech research centre. The campus also offers high quality meeting and conference facilities.

Rothamsted Research is also planning to develop a new Growth and Innovation Hub that will provide office

and labs work spaces, expert business and technical support.

Boosting the connection between research and its commercial potential, your business can also benefit from opportunities to develop, test and commercialise new concepts.

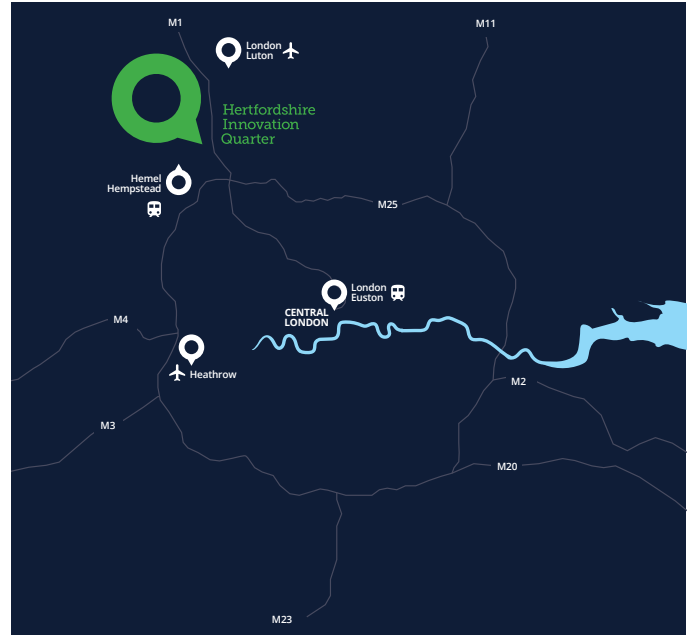

Just 30 minutes from London on the M1/M25, with a highly skilled local workforce, plus cutting edge research and innovation networks, Hertfordshire IQ is a place for innovation to thrive.
